dropdown border-top	2px solid <code>#3d9cd2</code>	Brand accent top border on dropdown	<code>.dropdown-menu { border-block-start: 2px solid var(--clr-primary); }</code>

► ⑤ DESIGN STRATEGY

STRATEGY	WHY USED	SOURCE EVIDENCE
Fixed + Backdrop Blur	Keeps nav accessible as user scrolls long page	<code>position: fixed; backdrop-filter: blur(8px);</code> JS adds <code>.scrolled</code> class on <code>scrollY > 60</code>
Flexbox Layout	Spaces logo, nav links, CTA cleanly in one row	<code>.nav-container { display: flex; justify-content: space-between; align-items: center; }</code>
Single Pill CTA	One action (Buy Now) focuses	<code>.btn-buy { border-radius: var(--radius-</code>

	conversion intent	lg); padding: 9px 22px; }
ARIA Dropdowns	Accessible keyboard/screen-reader navigation	aria-haspopup, aria-expanded, aria-controls — JS toggles these on click
Mobile Hamburger	Collapses nav at ≤ 640px breakpoint	@media (width <= 640px) { .hamburger { display: flex; } .nav-links { position: fixed; transform: translateY(-110%); } }

5.DESIGN STRATEGY

STRATEGY	WHY USED	SOURCE EVIDENCE
Full-Viewport Hero	Instantly communicates fashion brand identity	height: 100vh; min-height: 560px — takes entire screen real estate
Light Warm Overlay (not dark)	Keeps brand feel clean and airy — fashion aesthetic	rgba(240,240,235,0.45) — very light, not the typical dark overlay
Bottom-Left Content	Asymmetric — feels editorial/magazine	inset-block-end: 80px; inset-inline-start: 48px — NOT centered
loading: eager	Hero image is LCP — load immediately	img.hero-bg loading="eager" — prioritises above-fold performance

STRATEGY	WHY USED	SOURCE EVIDENCE
3-Column CSS Grid	Equal visual weight for 3 brand USPs	<code>grid-template-columns: repeat(3,1fr); gap: 32px</code>
Semantic <article>	SEO & accessibility — cards are independent content	Each card uses <article> not <div>
IntersectionObserver	Cards animate in on scroll — 15% visibility threshold	JS: threshold: 0.15 → adds .visible class → CSS transition
Image Hover Zoom	Rewards engagement with subtle micro-interaction	<code>.card:hover .card-img-wrap img { transform: scale(1.05); }</code>

► ⑤ DESIGN STRATEGY

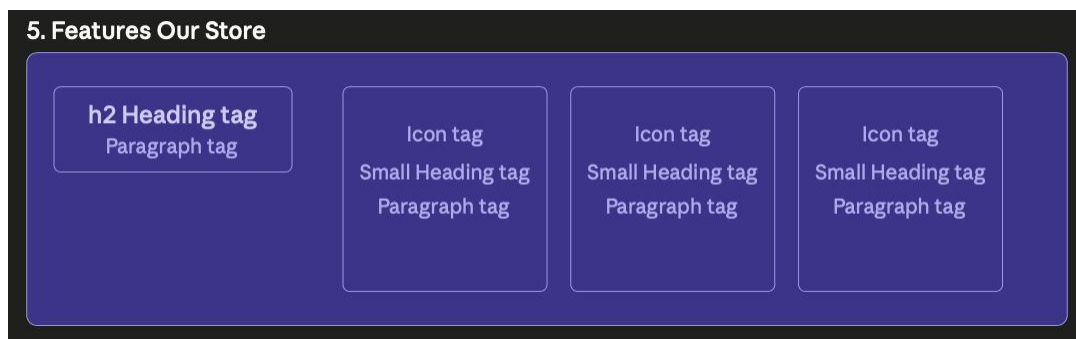

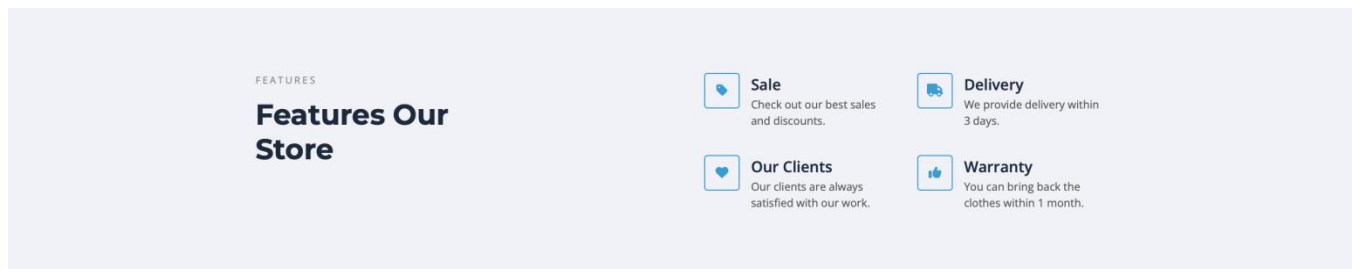

STRATEGY	WHY USED	SOURCE EVIDENCE
Light bg (not dark)	Consistent with clean brand aesthetic — not conventional dark footer	footer { background: var(--clr-bg-light); } — #f0f2f7
2fr Brand Column	Brand gets most space — description + social icons	grid-template-columns: 2fr 1fr 1fr
Circular Social Btns	Elegant hover with brand fill — not just icon color	.footer-social-btn:hover { border-color + background: var(--clr-primary); }
Semantic h2 in footer	Column headings use <h2> for document outline	<h2 class='footer-links-title'>News</h2> — not h4/h5
